Birth chart

Introduction

This is a computationally derived Vedic chart and a year-wise reading of the period 1981–2053, together with the evidence and its limits.

The birth record

Date	1981-12-09 · 01:00:00
Place	Berhampore, Murshidabad, West Bengal, India
Coordinates	,
Julian day (UT)	2444947.3125
Ayanamsa	Lahiri (Chitrapaksha) (23.604776°)
House system	Whole-sign (bhava-chalit) for D1 interpretation; Placidus computed for KP cusps only
Node	Mean node
Ephemeris	pyswisseph (Swiss Ephemeris 2.10.03)

How to read this report

Each subject has a reader-facing section that states what the tradition reads, followed by a compact astrological-basis box naming the mechanism, and — in the appendix — the exact scores and conventions behind it. Meaning comes before mechanics.

Interpretation & Safety Notice

This report separates three things that are easy to confuse.

DATA — Placements, degrees, dasha periods and transit instants. These are computed from the birth record with the Swiss Ephemeris and are reproducible.

TRADITIONAL INTERPRETATION — The readings in the reader-facing sections. They follow classical Jyotish doctrine — whole-sign houses, the significations of planets and houses — and are offered for consideration.

PRACTICAL FOCUS — Suggestions for attention and effort. These are general considerations, not instructions or guarantees.

This is not a prediction of events.

NO EVENT-LEVEL VALIDATION — The engine's per-year risk and mechanism readings were back-tested against 13 years of documented life events. That back-test found NO ability to distinguish event years from arbitrary years: the same verdict falls in 80.5% of arbitrary category-years, and a floor-independent rank test returned a median probability of 0.500 with 0 of 20 event years in the top decile of their own null distribution. Treat every yearly reading as traditional interpretation, not as a forecast.

No death, illness, or exact monetary loss is predicted.

Difficult periods are described as attention and sensitivity, never as certainty. Sade Sati is presented as a period of heightened emotional and family sensitivity, which is how the tradition reads it in practice.

Traditional remedies are cultural practice, not medical or financial advice. Nothing here substitutes for professional care.

ASTROLOGICAL BASIS

lagna lord Mercury · 10th lord Mercury · 7th lord Jupiter · AK Rahu · DK Mars

House-by-House

Twelve houses, read in whole-sign from the ascendant. Each house carries a meaning, a strength and a specific way to go wrong.

1 · SELF

Virgo · Mercury · body, temperament, direction

Ascendant in Virgo, Mars in Virgo, Saturn in Virgo

Core meaning

A person's manner and direction come from here. The sign and its occupants colour how the life is approached rather than what happens.

Strength

The ascendant is the most personal point in the chart.

Watch

Impulse can outrun judgement when the sign is fiery.

2 · FAMILY & MEANS

Libra · Venus · speech, savings, values

Jupiter in Libra

Core meaning

Family, speech, savings and values.

Strength

Accumulated resource and the voice that spends it.

Watch

Speech that outruns intent costs more than it earns.

3 · COURAGE & SIBLINGS

Scorpio · Mars · effort, initiative, communication

Mercury in Scorpio, Sun in Scorpio

Core meaning

Effort, initiative, communication, siblings.

Strength

Where courage is applied and skill is built.

Watch

Initiative without finish becomes scattered effort.

4 · HOME & MOTHER

Sagittarius · Jupiter · land, vehicle, inner peace, education

No planet occupies this house.

Core meaning

Home, land, mother, vehicle, education, inner peace.

Strength

The foundation the rest of the chart rests on.

Watch

A restless home drains what the 10th earns.

5 · INTELLECT & CHILDREN

Capricorn · Saturn · learning, creativity, progeny

Ketu in Capricorn, Venus in Capricorn

Core meaning

Intellect, creativity, children, purva punya.

Strength

Where learning turns into output.

Watch

Scattered interests dilute a strong fifth.

6 · CONFLICT & SERVICE

Aquarius · Saturn · health, debt, daily work, competitors

No planet occupies this house.

Core meaning

Conflict, health, debt, service, competitors.

Strength

Work done and obstacles met.

Watch

Service without boundaries becomes self-neglect.

7 · MARRIAGE & PARTNERSHIP

Pisces · Jupiter · spouse, contracts, negotiation

No planet occupies this house.

Core meaning

Marriage, partnership, contracts, negotiation.

Strength

How partnership is formed and kept.

Watch

A 7th lord in the 6th ties relationship to work and friction.

8 · TRANSFORMATION

Aries · Mars · longevity, research, hidden matters, inheritance

Moon in Aries

Core meaning

Transformation, longevity, research, inheritance, hidden things.

Strength

What changes and what can be released.

Watch

Intensity that reads as crisis is often just 8th-house work.

9 · FATHER & DHARMA

Taurus · Venus · fortune, higher study, teachers, belief

No planet occupies this house.

Core meaning

Father, fortune, higher study, teachers, dharma.

Strength

Meaning, teachers and the long road.

Watch

Belief held rigidly narrows the 9th's benefit.

10 · CAREER & STATUS

Gemini · Mercury · vocation, public role, authority

No planet occupies this house.

Core meaning

Career, status, authority, public role.

Strength

What the world sees.

Watch

Status pursued rather than earned becomes its own trap.

11 · GAINS & NETWORKS

Cancer · Moon · income, elder siblings, allies

Rahu in Cancer

Core meaning

Gains, networks, elder siblings, fulfilment of hopes.

Strength

Where returns arrive.

Watch

Networks without follow-through produce contacts, not income.

12 · LOSS & RELEASE

Leo · Sun · expense, foreign lands, letting go, retreat

No planet occupies this house.

Core meaning

Loss, expense, foreign lands, retreat, letting go.

Strength

What is released, and the cost of it.

Watch

The 12th is not only loss; it is also retreat and foreign ground.

Strength & Yogas

Ashtakavarga — Moon

House	1	2	3	4	5	6	7	8	9	10	11	12
Bindu	4	5	5	5	3	5	4	5	0	6	5	2
	1	2	3	4	5	6	7	8	9	10	11	12

Higher bindu = stronger supporting influence. The number is always printed; shade is a second channel, not the only one. Strongest sign Capricorn, weakest Sagittarius.

Shadbala — sixfold strength

Planet	Total	Minimum	Result	Surplus
Sun	5.77	6.5	below minimum	-0.73
Moon	8.88	6.0	meets minimum	+2.88
Mars	7.43	5.0	meets minimum	+2.43
Mercury	5.75	7.0	below minimum	-1.25
Jupiter	8.02	6.5	meets minimum	+1.52
Venus	7.76	5.5	meets minimum	+2.26
Saturn	5.91	5.0	meets minimum	+0.91

Vimshottari Dasha

The 120-year Vimshottari cycle, divided by the Moon's nakshatra at birth. Every year in this report inherits its dasha context from this sequence.

Dasha timeline

Venus Mahadasha
1976-08-18 — 1996-08-18
20 years.

Sun Mahadasha
1996-08-18 — 2002-08-18
6 years.

Moon Mahadasha
2002-08-18 — 2012-08-18
10 years.

Mars Mahadasha
2012-08-18 — 2019-08-18
7 years.

Rahu Mahadasha
2019-08-18 — 2037-08-18
18 years.

Jupiter Mahadash
2037-08-18 — 2053-08-18
16 years.

ASTROLOGICAL BASIS

5.31 years of the Venus mahadasha already elapsed at birth; 14.69 years remain · antardasha and pratyantardasha are reckoned from each mahadasha's own lord; balance is a fraction of the lord's own period, never of the 120-year cycle.

Life Themes

Six themes that run across the whole chart, stated once here so the year-wise sections can stay short.

Learning and credentials

Mercury rules both the ascendant and the 6th; the 9th carries the long road. Study that ends in a usable skill travels further than study that ends in a credential.

Work and vocation

The 10th in Aquarius with Saturn rules it: results come through sustained technical work and networks, not through position alone.

Money

Venus rules the 2nd and sits in the 5th. Resource follows craft and creative output; speculative gain is the 11th's risk.

Partnership

The 7th lord in the 6th ties marriage to shared work and daily service. Partnership built alongside work holds better than partnership built apart from it.

Children and learning

Jupiter's placement links the 5th and the 9th, so teaching and children arrive together in this chart.

Home and land

A 4th-lord emphasis makes property and inner steadiness a measurable theme rather than an abstraction.

Money

Ten money areas. The reading is stated once here; the year-wise sections only note which areas move.

INCOME

Earnings follow skill applied consistently rather than a single breakthrough.

LENDING

Lending is best limited to amounts that do not need returning on schedule.

BORROWING

Borrowing against future income limits the freedom the 11th usually provides.

DEBT

Existing obligations tighten faster than new income widens them.

RECOVERY

Deferred gains return when the 11th is genuinely activated, not on demand.

INVESTMENT

Speculation suits only what can be lost. Structured assets suit what must be preserved.

PROPERTY MONEY

Property is the classical 4th/12th pairing and is a real theme here.

INHERITANCE

Inheritance is an 8th-house subject; it is not a plan.

GAINS

The 11th rewards networks that are maintained, not merely made.

EXPENSE / LOSS

Expense follows emotion and family obligation more than planned outlay.

Standing caution

No specific amount, gain or loss is predicted anywhere in this report. Money readings describe conditions and priorities, not quantities.

Career

Eight strategy verbs. A year-wise page promotes only the verbs that year's own mechanisms actually activate; the rest stay here.

PUSH
Advance where momentum already exists.

WAIT
Hold position rather than force a move.

LEARN
Skill acquisition pays back across a dasha, not a month.

NETWORK
Allies convert faster than applications.

NEGOTIATE
Terms set early are cheaper than terms renegotiated late.

DOCUMENT
Written commitments are protective this period.

CHANGE
Structural change is supported where it removes a 6th-house drag.

CONSOLIDATE
Depth before breadth is the reliable return.

On employment periods

This chart's per-year engine has no demonstrated ability to identify employment events (see Validation Summary). No year in this report is presented as having predicted a job loss or a gain in employment.

Family & Relationships

Seven family areas, kept separate so each is easy to find.

SPOUSE
Partnership is tested by workload as much as by compatibility.

CHILDREN
Children and study share the same emphasis in this period.

PARENTS / ELDERS
Elder responsibilities fall on the same period as property questions.

HOME
The home absorbs most of the pressure in this period.

SEPARATION / DISTANCE
Distance between family members increases when the 12th is active.

FAMILY RESPONSIBILITY
Responsibility is real and should be scheduled, not absorbed silently.

INHERITANCE
Family assets and obligations need clarity in writing.

Health & Safety

A calm, non-alarming treatment. Traditional indicators of attention, never diagnosis.

Life & safety attention

● CAUTION

Traditional indicators suggest attention to:

- routine — sleep, meals and exertion kept regular
- elder responsibilities, which rise under 9th-house periods
- family transitions and the 4th/12th pairing
- health discipline during 6th-house activation

This is not a death prediction and not a diagnosis. Nothing in this report should displace professional medical advice.

What the risk engine actually does

The risk engine is a convergence counter: it counts how many independent mechanism families touch a theme in a year and compares the total against thresholds. It is a bookkeeping device for reading emphasis, not a probability of harm.

Ancestral Line

Genealogy as documentation, not as astrology. No chart is used to prove a relationship.

Paternal line

Generation	Name	Status
Subject	Swarna Sekhar Dhar	ROBUST
Father	Kusankur Dhar	CONFLICT — death year 2018 vs 2019
Grandfather	Sisir Kumar	UNCONFIRMED — generation disputed by a source screenshot

Kula Devata / Kula Devi

LOW CONFIDENCE

Status: NOT YET VERIFIED. A specific family deity cannot be established from planetary placements alone. The chart does not name one, and this report does not guess.

Evidence that would settle it:

- family tradition recorded by a living elder
- temple or shrine record
- historical puja record or festival practice

STATUS VOCABULARY

VERIFIED · UNCONFIRMED · CONFLICT · UNKNOWN — no status is upgraded on the strength of a chart.

Remedies

Two clearly separated kinds of advice, because they are not the same thing.

Practical action

DAILY

- Wake and sleep at consistent times; the 6th responds to routine.
- Keep one written account of commitments; the 2nd and 8th both reward clarity.
- Thirty minutes of quiet before work decisions, not after.

WEEKLY

- One evening a week without screens, to protect the 4th.
- Review in-progress commitments once a week rather than daily.

FINANCIAL DISCIPLINE

Separate operating money from long-horizon money and review it monthly, not in a crisis.

CAREER

Write down what was delivered each week. The 10th is strengthened by record, not by impression.

HEALTH

Keep exertion regular rather than occasional and intense.

FAMILY / ELDER

Schedule elder obligations in advance; the 9th period asks for presence rather than money.

Traditional practice

Status of traditional remedies. The practices below are part of the cultural tradition this chart belongs to. They have no scientifically established efficacy for changing events, and they are offered as discipline, family observance and peace of mind — not as treatment and not as a substitute for advice.

- Daily recitation of the nakshatra lord's mantra, at a fixed hour.
- Weekly Saturn or dasha-lord observance on its traditional day.
- Charity or service on the 11th, timed to the gain period.
- Respect for elders during a 9th-house period, especially around medical care.
- Conspicuous consumption avoided; the 12th is better served by letting go than by spending.

Birth-Time Sensitivity

Five years depend materially on the birth minute. They are labelled everywhere they appear.

What this means

Readings were re-derived across a ±15 minute sweep of the birth time. Where a year changes, the change is labelled TIME-SENSITIVE · LOW CONFIDENCE rather than presented at the same weight as the rest.

A stable chart is not the same as a validated one. This section concerns calculation stability only — see Validation Summary for what the engine can and cannot support.

MODERATE MODERATE MODERATE ROBUST ROBUST ROBUST ROBUST

Validation Summary

The engine's per-year readings were back-tested against documented life events. The result was negative and is reported here rather than omitted.

Result: NO-GO for event-level prediction

Events tested	20 testable (13 years; 3 events untestable for lack of dates)
Absolute verdict test	MATCH+PARTIAL in **80.5%** of 1,022 arbitrary category-years — uninformative by construction
Floor-independent rank test	median p = **0.500**; **0 of 20** event years in the top decile; 3 of 20 in the bottom
Best single result	p = 0.167. Chance expects 2.0 hits at α = 0.10 over 20 tests; **0 found**

Specific claims the back-test contradicts

Claim a reader might assume	What the data shows
2024 shows family separation	2nd house activation **0**, 12th **1** in that year
2026 shows career interruption	10th house activation **0** in that year
The 9th house tracks qualification	The year the qualification obstruction *ended* carries the highest 9th score; the first-class year is among the weakest
The 9th house tracks the father	9th activation is **1** in the surgery year and in both candidate death years alike

How to read every year-wise section, then. The chart and the dasha are computed and reproducible. The yearly narrative is traditional interpretation offered for reflection. It has not been shown to identify real events, and it is not offered as a forecast.

The 5th house activation for this year is no frozen extraction — the per-year extraction for this year is not in the frozen set.

Property, inheritance & ancestral themes

The 4th house activation is no frozen extraction and the 8th is no frozen extraction. Property questions are 4th-house subjects; deferred or inherited matters are 8th-house subjects.

Health & safety attention

● CAUTION Traditional indicators suggest attention to routine, elder responsibilities and family transitions. This is not a diagnosis or a death prediction.

Major gains and opportunities

No theme reached the escalation threshold for this section this year. This is a statement about the engine's own thresholds, not a promise that nothing arrives.

Major cautions

No theme reached the escalation threshold for this section this year. This is a statement about the engine's own thresholds, not a promise that nothing arrives.

What to do

- Apply effort where the engine records a dasha-lord activation for this year.
- Convert networks into written commitments rather than intentions.
- Keep financial decisions in writing during periods of 12th-house activation.

What to avoid

- Expanding commitments faster than the 10th-house activation supports.
- Treating a favourable reading as a result that is already secured.
- Deferring a family or elder obligation on the assumption it will improve later.

How to maximise the period

Concentrate effort in the houses the engine actually activates for this year, and treat the quietest as areas to protect rather than to push.

Traditional remedies

See **Remedies** earlier in this report. Traditional practice is culture, not treatment.

The 5th house activation for this year is no frozen extraction — the per-year extraction for this year is not in the frozen set.

Property, inheritance & ancestral themes

The 4th house activation is no frozen extraction and the 8th is no frozen extraction. Property questions are 4th-house subjects; deferred or inherited matters are 8th-house subjects.

Health & safety attention

● ATTENTION Traditional indicators suggest attention to routine, elder responsibilities and family transitions. This is not a diagnosis or a death prediction.

Major gains and opportunities

Theme	Status	Mechanisms	Gate condition
routine and wellbeing	● ATTENTION	4	2+ distinct dasha lords AND 2+ distinct transit grahas AND >=4 mechanisms on the same them

Major cautions

No theme reached the escalation threshold for this section this year. This is a statement about the engine's own thresholds, not a promise that nothing arrives.

What to do

- Apply effort where the engine records a dasha-lord activation for this year.
- Convert networks into written commitments rather than intentions.
- Keep financial decisions in writing during periods of 12th-house activation.

What to avoid

- Expanding commitments faster than the 10th-house activation supports.
- Treating a favourable reading as a result that is already secured.
- Deferring a family or elder obligation on the assumption it will improve later.

How to maximise the period

Concentrate effort in the houses the engine actually activates for this year, and treat the quietest as areas to protect rather than to push.

Traditional remedies

See **Remedies** earlier in this report. Traditional practice is culture, not treatment.

This year in one sentence

A Venus / Jupiter year carrying red attention, with wellbeing themes receiving the most activation (4 recorded mechanisms).

Overall life picture

The year's emphasis falls on professional (2 mechanisms), financial (2 mechanisms), relational (4 mechanisms), property (3 mechanisms), administrative (3 mechanisms). Weight is placed where several independent mechanism families agree, not where a single one is loud.

Calculation conventions

Ephemeris	pyswisseph (Swiss Ephemeris 2.10.03)
Ayanamsa	Lahiri (Chitrapaksha) (23.604776°)
Node	Mean node — Ketu is computed as mean node + 180°, never the true/KP node
House system	Whole-sign (bhava-chalit) for D1 interpretation; Placidus computed for KP cusps only
D10 convention	R1 (class-based: movable from itself, fixed/dual from the 9th)
Julian day (UT)	2444947.3125
Engine version	kundali-calc 1.0
Dataset generated	2026-10-04T00:52:36

Risk distribution across 1981–2053

Level	Years
ORANGE	9
RED	12
YELLOW	52

Ashtakavarga method

4 of 7 planetary tables are verified against their published totals (Mars=39, Moon=49, Saturn=39, Sun=48). Remaining tables (Mercury, Jupiter, Venus) are not confirmed and were not fitted to their checksums, so the Sarvashtakavarga total is NOT reported: a partial sum is not the classical 337 and would be misleading.

Charts computed: Mars, Moon, Saturn, Sun. Not computed: Mercury, Jupiter, Venus.

Notation and units

Degree / minute / second	23° 02′ 18″ — degree °, arcminute ′, arcsecond ″
Sign ingress	Gemini → Cancer (forward, direct motion)
Retrograde ingress	Cancer → Gemini ← direct motion resumes later in the year
Currency	₹ — amounts are never predicted; the symbol marks the money sections only
Tolerance notation	agreement is asserted where the difference is ≤ 1e-6° on longitudes and ≤ 0.001 y on dasha balance; a threshold gate is met at ≥ RED
Long-range arrow	1981 → 2053 — the dossier span
Verification mark	✓ independently verified · — disclosed gap · ? unconfirmed transcription

Risk engine thresholds

RED gate	weighted score ≥ 8 AND ≥ 4 distinct mechanisms AND ≥ 2 dasha lords AND ≥ 2 transit grahas
ORANGE gate	weighted score ≥ 7 AND ≥ 3 distinct mechanisms
Engine wording	2+ distinct dasha lords AND 2+ distinct transit grahas AND >=4 mechanisms on the same theme

These gates are bookkeeping for reading emphasis. They are not probabilities of any event, and the back-test in Validation Summary shows they do not identify real events.

Test status

Suite	Result
kundali_core	101 passed, 0 failed
second-pass independent re-derivation	24 passed, 0 failed
birth-time sensitivity	27 passed, 0 failed
final risk report	52 passed, 0 failed
reference dataset verification	60 passed, 0 failed
transit aspects	30 passed, 0 failed
73-year generation	92 passed, 0 failed
PDF layout	36 passed, 0 failed
total	**398 passed, 0 failed**

Test counts cover computation and formatting. They do **not** cover event-level accuracy, which was tested separately and failed — see Validation Summary.

Known limitations

- **D27 (Bhreshta)** is not implemented — 15 of 16 vargas are computed.
- **KP house cusps and sub-lords**, Tajika beyond Muntha, and Nadi are not computed.
- **Vedha** (planetary obstruction of a transit) is not implemented, so transit benefits are computed incompletely.
- **Historical source transcription** is PENDING — HISTORICAL IMAGE VISION VALIDATION
- **Event-level predictive validity: NO-GO**, measured and reported.
- **Visual page inspection: NOT VERIFIED** — the vision provider returns an authentication error, so validation is structural and geometric only.
