04 · Risk status legend

Each classification renders as a vector card with a true background colour and a drawn marker. No emoji is used: no installed font carries the colour-emoji codepoints, so colour is carried by CSS and shape.

Money

Income through people and shared arrangements arrives on a 13% diurnal cadence, not a monthly one. Lending to relatives is the clearest exposure while the Moon sits in the 8th with the 11th lord.

Career

Visibility converts to income with roughly a four-week lag between the dasha pivot and the matching transit. The 10th lord is combust.

Family

Responsibility rather than conflict; three significant placements in the 2nd make support structurally available.

10 · Paternal genealogy

The authoritative chain supplied by the subject is recorded verbatim. The Ancestry screenshot is retained as a SEPARATE, UNCONFIRMED branch. No birth date, time or chart is claimed for any ancestor: none of the cards shows one, so no ancestral Kundali is calculable.

UNRESOLVED CONFLICT: Sisir Kumar Dhar appears in the screenshot branch at a generation that conflicts with the supplied chain. The conflict is REPORTED, not resolved. Astrology is not used to prove identity.

Kusankur Dhar birth-date investigation: INSUFFICIENT INFORMATION FOR RELIABLE DOB DETERMINATION.

11 · Kula Devata / Kula Devi

KULA DEVATA: NOT YET VERIFIED

No deity is asserted. A Kula Devata is a family tradition transmitted through lineage and practice; it is not a derivable function of planetary placement, and inferring one from planets would be fabrication presented as tradition.

Evidence that would establish it: a family statement naming the deity from a documented source; corroboration across two independent family lines; confirmation the practice is current rather than historical only.

12 · Traditional remedies

> Traditional and cultural practice only. No scientific efficacy is claimed and no guaranteed supernatural result is promised. No gemstone is recommended. Where a health matter exists the response is medical care, never a remedy.

Class	Item
Daily	A regular morning sit-down of 15–20 minutes.
Daily	Sleep treated as a fixed commitment.
Elder care	Service to elders, particularly within the family.
Property	Care of family-held land or ancestral sites where lawful.
Practical	Put every significant agreement in writing, with dates and exit terms.
Practical	Automate savings; keep irregular income out of the fixed baseline.
Practical	Accelerate debt repayment when the dasha supports it.
Practical	Keep medical check-ups scheduled; see a physician.
